👨‍💻 Professional Summary

Results-oriented **Senior Full-Stack Developer** with **4+ years** of experience in designing, developing, and maintaining scalable web applications. Proficient in **TypeScript**, **Vue.js**, **React**, **Laravel**, and modern frameworks and technologies to build responsive and user-friendly interfaces. Strong ability to collaborate with cross-functional teams and deliver high-quality solutions on time.

Key Strengths:

- 🚀 Scalable Architecture Design
- 📱 Cross-Platform Development
- 🤖 AI/ML Integration
- 👥 Team Leadership

💼 Work Experience

Senior Full-Stack Developer | ООО «Апплойд Медиа» (Belarus)

January 2025 - Present

Leading development of AI-powered web applications using Vue.js, Laravel, and modern DevOps practices. Specializing in AI integration, e-commerce solutions, multi-payment systems, and scalable microservices architecture. Implemented CI/CD pipelines, Docker containerization, and Nginx load balancing for high-availability systems.

Technologies: Vue.js 3, Laravel 11, TypeScript, Docker, Nginx, CI/CD Pipelines, AI Integration, E-commerce, Payment Systems, Redis, MySQL, Temporal

---

Middle+ Full-Stack Developer | SharpBit (Portugal)

2023 - 2024

Leading development of enterprise applications using Vue.js and Laravel. Delivered solutions that significantly improved application performance and user engagement.

Technologies: Vue.js, Laravel, TypeScript, MySQL, RESTful APIs

---

Full-Stack Developer | WeExpert (Poland)

2023 - 2024

Building scalable web applications with modern tech stack. Collaborated with cross-functional teams to deliver high-quality solutions.

Technologies: React, Node.js, TypeScript, PostgreSQL, GraphQL

React/React Native Developer | SL Max (Belarus)

2022 - 2023

Mobile app development and cross-platform solutions. Created responsive and user-friendly mobile applications.

Technologies: React, React Native, JavaScript, Mobile UI/UX

Technical Skills

Frontend Development

- **Vue.js 3** (Expert) - Composition API, Nuxt.js, Pinia
- **TypeScript** (Advanced) - Strict typing, Generics, Utility types
- **React/React Native** (Advanced) - Hooks, Context API, Mobile development
- **Tailwind CSS** (Expert) - Utility-first CSS framework
- **HTML5/CSS3** (Expert) - Semantic markup, responsive design

Backend Development

- **Laravel 11** (Expert) - Eloquent ORM, Blade templates, Artisan CLI
- **PHP 8.3** (Advanced) - Attributes, Enums, Match expressions
- **Node.js** (Intermediate) - Express.js, RESTful APIs
- **RESTful APIs** (Advanced) - API design, authentication, documentation

- **GraphQL** (Intermediate) - Schema design, resolvers

DevOps & Tools

- **Docker** (Advanced) - Containerization, Docker Compose, multi-stage builds
- **Git/GitHub** (Expert) - Version control, CI/CD workflows
- **CI/CD** (Advanced) - GitHub Actions, Bitbucket Pipelines, automated deployment
- **Nginx** (Advanced) - Web server configuration, load balancing, reverse proxy
- **AWS/Cloud** (Intermediate) - EC2, S3, CloudFront
- **Temporal** (Advanced) - Workflow orchestration, async processing
- **Laravel Horizon** (Advanced) - Queue management, job monitoring

AI & Emerging Technologies

- **AI Integration** (Advanced) - OpenAI API, Anthropic, Google AI
- **MediaPipe** (Advanced) - Computer vision, gesture recognition
- **OpenAI API** (Advanced) - GPT-4, DALL-E 3, embeddings, fine-tuning
- **PWA** (Intermediate) - Service workers, offline functionality
- **WebAssembly** (Learning) - High-performance web applications
- **Payment Systems** (Advanced) - Stripe, PayPal, SBP integration
- **E-commerce** (Advanced) - Multi-payment, subscription systems

Databases & Storage

- **MySQL** (Advanced) - Database design, optimization, indexing
- **PostgreSQL** (Intermediate) - Advanced queries, JSON support
- **MongoDB** (Intermediate) - NoSQL database, aggregation pipelines
- **Redis** (Intermediate) - Caching, session storage

🚀 Featured Projects

Motiohead - Creative Production Platform

Vue.js, Laravel, AI Integration, MediaPipe

Creative production platform with AI-powered content generation and visual storytelling tools. Integrated MediaPipe for gesture recognition and OpenAI APIs for content generation.

Key Features:

- AI-powered content generation
- Real-time gesture recognition
- Responsive design
- Performance optimization

Live Demo: https://www.motiohead.com/

Storyman.ai - AI-Powered Storytelling Platform

React, Node.js, OpenAI API, TypeScript

AI-powered visual storytelling platform with structured framework for content creation. Integrated multiple AI services for text and image generation.

Key Features:

- AI content generation
- Visual story creation
- User collaboration
- Real-time updates

Live Demo: https://www.storyman.ai/

GeoTek Mobile - GPS Transport Monitoring

React Native, GPS Tracking, Real-time Data

GPS/GLONASS transport monitoring mobile application for Android and iOS platforms. Real-time tracking and data visualization.

Key Features:

- Real-time GPS tracking
- Cross-platform compatibility
- Offline functionality
- Data visualization

Play Store: [Google Play](#)

Astro App - AI-Powered Astrology Platform

Nuxt 3, Vue 3, MediaPipe, TypeScript, Laravel 11, OpenAI API, Docker, Nginx

AI-powered astrology platform with gesture recognition, multi-page funnel, and A/B testing integration. Advanced onboarding flow with animations and real-time updates. Domain-driven design with microservices architecture.

Key Features:

- AI-powered astrology reports

- Gesture recognition with MediaPipe
- Multi-page funnel (compatibility, palmistry, soulmate, natal-chart)
- A/B testing with GrowthBook
- Onboarding flow with animations
- Real-time chat system
- AI-powered compatibility reports (OpenAI GPT-4, DALL-E 3)
- Multi-payment integration (Stripe, PayPal, SBP)
- 22+ modules (AI, Reports, User, Subscriptions, etc.)
- Event-driven architecture
- Queue jobs for async operations

🎓 Education & Certifications

Backend Developer Certification | Pixelpex

2021 - 2022 | Minsk, Belarus

Comprehensive backend development course covering Laravel, PHP, and database design.

Frontend Developer Certification | RS School (EPAM)

2021 - 2022 | Minsk, Belarus

Advanced frontend development program with focus on modern JavaScript frameworks and best practices.

Belarusian National Technical University

2008 - 2013 | Minsk, Belarus

Bachelor's degree in Engineering with focus on technical problem-solving and analytical thinking.

🌍 Languages

- **English:** B1- (Reading the documentation, writing simple emails, basic conversation)
- **Polish:** B1 (Independent user)
- **Russian:** Native
- **Belarusian:** Native

🏆 Client Testimonials

Dzmitry Varabei - Senior Program Manager at EPAM Systems

"Artem has been mentoring students in the JavaScript/Front-end course for 6 months. He effectively guided students through complex concepts and provided valuable insights that significantly enhanced their learning experience."

Sergey Ryabenko - Founder at SharpBit

"Artem brings great energy and a 'can do' attitude. He was instrumental in creating and implementing new software that saves us a huge amount of time and resources. Highly recommended."

Nadya Gorodetskaya - Founder/Creative Director at MOTIOHEAD

"Artem's talent, knowledge, and communication were beyond all expectations. A truly sophisticated TOP level professional. I was amazed by the result of his work."

📊 Professional Statistics

- **4+ years** of professional experience
- **30+ projects** completed successfully
- **25+ technologies** mastered
- **100% client satisfaction** rate
- **5-star average** rating from clients

🎯 Key Achievements

Leadership & Mentoring

- Mentored 15+ junior developers
- Led development teams of 5+ members
- Conducted technical interviews and code reviews
- Established coding standards and best practices

🔧 Development Methodologies

- **Agile/Scrum** - Sprint planning, daily standups, retrospectives

- **Test-Driven Development (TDD)** - Unit testing, integration testing
- **Continuous Integration/Deployment** - Automated testing and deployment
- **Code Review** - Peer reviews, quality assurance
- **Documentation** - Technical documentation, API documentation

---

🌟 Soft Skills

- **Problem Solving** - Analytical thinking, creative solutions
- **Communication** - Clear technical communication, client relations
- **Time Management** - Meeting deadlines, project prioritization
- **Team Collaboration** - Cross-functional teamwork, knowledge sharing
- **Adaptability** - Quick learning, technology adoption

📈 Career Goals 2026

Technical Goals

- [ ] Obtain Vue.js or Laravel certification
- [ ] Contribute to open source projects
- [ ] Create technical blog and share knowledge
- [ ] Speak at developer conferences
- [ ] Publish npm/composer packages
- [ ] Create open-source AI integration library
- [ ] Develop e-commerce framework
- [ ] Specialize in AI-powered applications

Professional Goals

- [ ] Advance to Tech Lead position
- [ ] Lead larger development teams
- [ ] Mentor more junior developers
- [ ] Participate in technical interviews
- [ ] Develop leadership skills
- [ ] Become AI integration expert
- [ ] Specialize in e-commerce and payment systems

📞 Let's Work Together

I'm available for new projects and opportunities. Whether you need a complete web application, mobile app, or technical consulting, I'm ready to help bring your ideas to life.

Available for:

- Full-time positions
- Contract work
- Project-based collaboration
- Technical consulting
- Code reviews and mentoring

Response Time: Within 24 hours

Last Updated: October 2025
